The Awakening of Global Consciousness Apr 26 2022 One of the world's leading spiritual teachers returns with an inspiring and provocative message with solutions to our planetary crises, offering effective steps to change the world and integrate all levels of our Being. Religion is psychological entrapment promoting the controlled behavior of the herd civilization.

Institutionalized organized religion is the cause of enslavement, violence, prejudice, hatred, classism, and war. False religious institutions created god in their own personal image and after the likeness of their own mind for control and money. Every religious holy book has been altered, dissected, rewritten, and censored to appear as the word of God, and all the gods of religious holy books are controlled by fundamentalists. Organized religion is a serious threat to the human race and a mental illness that afflicts over 80% of the world's population. It has nothing to do with spirituality and is no more than a collection of unholy lies. The spiritual terrorism of religion frowns upon free will, dispises questions, prohibits doubt, and survives on blind faith. Eternal life with God is only promised to the obedient religious-slaves who unconditionally follow rigid religious belief structures. This mythology was created based on division, not unity. Control is the essence of evil. The easiest way to control humanity is through fear, which is why the religious Elite created gods of intimidation and fear; to control others and solicit money. "The Awakening of Global Consciousness is a must read for the millions who've read Jawara's earlier classic books and a great beginning for those unfamiliar with his great works questioning the validity of the world's three major religions."

GreenTOpia Aug 07 2020 More trees. Hydrogen-fuelled cabs. Urbiology. A new model of taxation. Solar panels on big-box stores. The art of salvage. Composters for dog poo in city parks. Retrofitting our urban slabs. Gardening the Gardiner. Ravine City. What would make Toronto a greener place? In the third volume of the uTOpia series, dozens of imaginative Torontonians think big and small about sustainability. From suggestions for changes to our transit system and more mixed-use neighbourhoods to a tongue-in-cheek proposal for a painted line around the city and a short comic book about Toronto in the year 2057, GreenTOpia challenges the city and its residents to rethink what it means to be green in a metropolis, and how to take their love of the city one green step further. Other pieces include an interview with Mayor David Miller and a breakdown of the ecological impact of our morning coffee. GreenTOpia features photos, maps and a 56 page green directory of resources, organizations, incentives and programs promoting sustainability in the GTA.

Inverting the Paradox of Excellence Jul 06 2020 Over time, overemphasis and adherence to the same proven routines that helped your organization achieve success can also lead to its decline resulting from organizational inertia, complacency, and inflexibility. Drawing lessons from one of the best models of success, the evolutionary model, *Inverting the Paradox of Excellence* explains why your organization must proactively seek out changes or variations on a continuous basis for ensuring excellence by testing out a continuum of opportunities and advantages. In other words, to maintain excellence, the company must be in a constant state of flux! The book introduces the patterns and anti-patterns of excellence and includes detailed case studies based on different dimensions of variations, including shared values variations, structure variations, and staff variations. It presents these case studies through the prism of the "variations" idea to help you visualize the difference of the "case history" approach presented here. The case studies illustrate the different dimensions of business variations available to help your organization in its quest towards achieving and sustaining excellence. The book extends a set of variations inspired by the pioneering McKinsey 7S model, namely shared values, strategy, structure, staff, style, staff, skills, systems, and sequence. It includes case history segments for Toyota, Acer, eBay, ABB, Cisco, Blackberry, Tata, Samsung, Volvo, Charles Schwab, McDonald's, Scania, Starbucks, Google, Disney, and NUMMI. It also includes detailed case histories of GE, IBM, and UPS.

The Gentle Way III Sep 19 2021 Tom T. Moore's third self-help book is filled with even more truly unique stories from people all over the world who benefit from requesting most benevolent outcomes. This incredibly simple technique puts you back in touch with your guardian angel and can assist you in manifesting your goals. Learn to request benevolent outcomes for everything in life, from paying the bills and finding good parking spots to battling poor health and staying safe in storms. ?When I began requesting MBOs about sixteen years ago, I had no idea how many extra benefits there were in making these requests. I just knew they worked perfectly, and I had never been able to say that about any other modality I had tried over the past thirty years. ?Almost three years have passed since *The Gentle Way II* was published. Yet as many success stories as that book contained, I have continued to receive truly unique stories from people all over the world requesting most benevolent outcomes and asking for benevolent prayers for their

families, friends, other people, and other beings. It just proves that there are no limits to this modality, which is becoming a gentle movement as people discover how much better their lives are with these simple yet powerful requests. ?Enjoy the many inspiring stories in the pages of this book, and if you have not tried requesting most benevolent outcomes in your life before, please do so. It will be the best thing you have ever done for the rest of your life! ? Tom T. Moore
