Mustang 5.0 Performance Projects Jul 30 2022 From America's cultural gatekeeper comes a profile of the man who defines the nation's soul. David Remnick, Pulitzer Prize-winning writer and editor of 'The New Yorker', applies his unique journalistic voice to paint a portrait of rock legend and working-class poet Bruce Springsteen. The result is what 'Rolling Stone' called 'one of the most thorough profiles of Springsteen ever published'.Remnick shadows Springsteen from his recent Wrecking Ball world tour, the whole way back to the beginning, back to Asbury Park, to childhood rock'n'roll fantasies. Details of Springsteen's strained relationship with his father, his battle with mental illness, his marriage, and the joys and anguish of friendships forged and lost with ephemeral E Street Band members, are all delicately woven through a career that spans over four decades as America's working-class hero.We Are Alive not only tells the story of a living legend, but also produces an insight into the heart of America, the drive of self-transformation and renewal. Remnick has created an important text on the history of music.'One of the most thorough profiles of Springsteen ever published.' Rolling Stone

The Amphigeo Story Jan 24 2022 Amphibious vehicles were some of the first self propelled vehicles ever created going all the way back to 1805. The only Factory produced amphibian was the Amphicar in the 60's. Just some of the facts about amphibians that are dispelled in "The Amphigeo Story." Today more than ever the world is ready for such a vehicle, one that you can drive around doing errands as well as tear down a boat ramp into the froth. The Amphigeo is for the masses, two thirds of the planet is covered in water, and 70% of the world's population lives on the water or very near. Why then should it be we have to own a boat and a car to take advantage of both mediums of transportation? Not anymore, Mark Roehrig has developed the simplest conversion ever conceived for putting a car into the water. His "Amphigeo" took just 5 months to build; his second would only take about 3 months, for now he knows all the secrets and shortcuts, which is exactly what prompted him to write "The Amphigeo Story." Now anyone can own an amphibious car, at the lowest price ever imagined, in fact the Amphigeo is just that, the world's best bargain in an amphibian. The Amphigeo makes use of many of the original parts, including engine, transmission, CV axles, steering, suspension, seats, dash, radiator, fans, fuel tank and more. This car has changed his life, everywhere he goes crowds gather, the press and TV has loved doing the story. But Mark will tell you none of that surpasses driving in the water, it is his ultimate reward, and after 2 years the Amphigeo's design has proved reliable. If you're ready for the experience of a lifetime, this books for you, you could build an Amphigeo or have one built, but owning one will definitely put an end to the everyday doldrums. Any car can drive into the water, only a good one can drive out again.
