is infallible in its totality. It is inerrant in its parts. It is complete. It is authoritative and final. It is totally sufficient for your needs. It accomplishes what it promises. curricula and teacher agendas, the author presents a study that is unique. Rather than contributing to the body of lesson materials, G. Davis Dean Jr.'s focus is upon the nature of Sunday School teaching itself. Understanding the nature of Sunday School teaching comes about as each teacher learns to appreciate his place of service within the congregation as an extension of the Christian congregation's teaching ministry. But the nature of such teaching and the role of the Sunday School teacher is also as one who has opportunity to promote the social cohesion of a vital

portion of the congregation. Such realization in turns shapes his care and concern for the lesson material he presents to the children of his class in support for the faithful parents who send them. Mr. Dean's subsequent approach to teaching and class management is both theological and practical. But that does not mean his approach becomes reduced to mere formulae, method or technique. Rather, there is a recognition that beyond the pre-prepared weekly Sunday School lesson, the best teaching presentation is also the one adapted to meet the needs of his particular class.

In this book, there is espoused a firm reliance upon the guidance of the Holy Spirit who comes by scriptural study, lesson preparation and prayer.

Classical Sunday School Jun 04 2020

This Teacher's manual contains the drill books for all six cycles of Classical Sunday School, along with a guide for teaching the curriculum. At Classical Sunday School, we believe:

1. The Bible is a great book. We really mean that. It's filled with heroes, villains, seductresses, world empires, grandeur, grossness, plot twists and an ending that will blow you away.
2. Kids would love to learn what's in the

Bible. They would love it so much, that they'd actually put effort into mastering it, if anybody would respect them enough to teach them. 3. The proven Classical Method is the best way to teach kids the amazing content of the Bible. A little about the Classical Method: The Classical Method divides a child's learning adventure into three stages: grammar, dialectic, and rhetoric, referred to collectively as the Trivium. During the grammar (or data) stage, a child's mind is like a thirsty sponge, absorbing information wherever it can. Kids in this stage memorize easily

and are insatiably curious. In the dialectic state, a child begins to synthesize the data he's accumulated, connecting the dots and trying to understand how all of his stored information fits together. In the rhetoric stage, a young person begins to use his data-laden framework of the world to try to persuade and influence. The Classical Method of education has been the gold standard for millennia, producing the great minds of the Western intellectual tradition. As modern educators have recoiled from the rigors of the Classical Method, modern students have suffered.

Clearly, this style of education is built on a foundation of data. Names, dates, locations, lists, descriptions. The more data a mind stores, the more dots it can connect, the more persuasive it can become. The broader the base, the taller the building. This curriculum is designed for use in the grammar stage—typically with kids 4-11 or 12 years old. It contains data, and lots of it. There are maps, timelines, genealogies, memory passages, lists of kings and covenants and more. A Sunday School teacher, armed with this book and a Bible, can prepare his students to become

biblically literate. But please remember: we present all this information not to puff up, or to show off. The vast amount of data is introduced so that when our kids reach the rhetoric stage, their sweet minds will have information to massage and assemble. If a kid reaches the rhetoric stage, where his mind is longing to put pieces together to make sense of the world, and he finds that he's missing lots of pieces, he gets frustrated. And surly. And rude. We don't want that, now do we? Owning a broad base of data equips a child for the daunting task of making sense of the world,

and eventually making his mark in it. Such knowledge also prevents a young person from falling prey to harmful fads and destructive ideologies. It's not so easy to dupe a kid who is armed with facts. The songs and other resources found on the website might prove helpful in mastering the material.
