**Documentary Evidence** Jul 13 2021 "Now in its 13th edition, Documentary Evidence is a comprehensive guide to the legal obligations of disclosure. Logically presented and lucidly written, it provides detailed analysis and sensible practical advice. Following a chronological structure, it shows when and how a practitioner should take action in relation to the obligation to disclose. It is a standard work that is often cited in court judgments. Under the Civil Procedure Rules the parties to an action are encouraged to adopt a "cards-on-the-table" approach toward the exchange of information, not just once litigation has commenced but before as well. It is likely in the early stages that a few documents will be identified as being relevant or key to the matter at hand. These will be used to provide advice as to the merit or not of proceeding with the dispute. If the decision is taken to proceed, the law imposes a requirement to make full and proper disclosure, which is the process whereby the parties to an action disclose to each other all documents in their possession, custody or power relating to matters in question in the action. This title deals with the nature and scope of the obligation to disclose."--Publisher's website.

**Organizations: Behavior, Structure, Processes** Mar 29 2020 The Fourteenth Edition of the award-winning Organizations: Behavior, Structure, Processes is based on the idea that managing people, structure, and processes in organizations is a challenging, compelling, and crucial set of tasks. This book illustrates how organizational behavior theory leads to research and how both theory and research provide the basic foundation for practical applications in business firms, hospitals, educational institutions, government agencies, and other organizations. Readers are given the opportunity to look inside these organizations and to develop their own perspective and skills for managing organizational behavior. In recognition of its educational effectiveness, in 2005 the book received the Text and Academic Authors Association's McGuffey

Longevity Award.

**Down to Earth Sociology: 14th Edition** Sep 22 2019 For thirty-five years and through thirteen editions, Jim Henslin's Down to Earth Sociology has opened new windows onto the social realities that shape our world. Now in its fourteenth edition, the most popular anthology in sociology includes new articles on our changing world while also retaining its classic must-read essays. Focusing on social interaction in everyday life, the forty-six selections bring students face-to-face with the twin projects of contemporary sociology: understanding the individual's experience of society and analyzing social structure. The fourteenth edition's exceptional new readings include selections on the role of sympathy in everyday life, mistaken perceptions of the American family, the effects of a criminal record on getting a job, and the major social trends affecting our future. Together with these essential new articles, the selections by Peter Berger, Herbert Gans, Erving Goffman, Donna Eder, Zella Luria, C. Wright Mills, Deborah Tannen, Barrie Thorne, Sidney Katz, Philip Zimbardo, and many others provide firsthand reporting that gives students a sense of "being there." Henslin also explains basic methods of social research, providing insight into how sociologists explore the social world. The selections in Down to Earth

Sociology highlight the most significant themes of contemporary sociology, ranging from the sociology of gender, power, politics, and religion to the contemporary crises of racial tension, crime, rape, poverty, and homelessness.

**Educational Psychology** Sep 15 2021 In lucid and jargon-free prose, the text explains and illustrates educational psychology's practical relevance for teachers and learners. The new edition continues to emphasize the applications of research on child development, on learning and cognition, on motivation, and on instruction and assessment. At the same time the text has long been counted on for its state of the art presentation of the field of educational psychology, and this edition continues that tradition with new and expanded coverage of import topics like the brain and neuroscience, the impact of technology on the lives and learning of students, and student diversity. From reviews of the book: "I polled my students . . . and the vast majority actually liked the textbook (which is rare). They find it easy to read, interesting and engaging. . . . This textbook's major strengths are its cognitive perspective, its readability, and the fact that it puts into practice some of the information-processing strategies that it teaches as effective ways to process information. . . ." -Elizabeth Pemberton, University of Delaware "[T]he text is written in a . . . conversational style that invites students to actively explore complex questions about teaching and learning. It is well-organized, supported with visual aids, and various learning tools, such as guidelines, reflection activities, and cases presenting opposing viewpoints. Most importantly, the text is informed and well supported by contemporary scholarship in the field of educational psychology." -Alina Reznitskaya, Montclair State University Video-Enhanced Pearson eText.
