Guardians of Idolatry May 31 2020 In 1629, Catholic priest Hernando Ruiz de Alarcón produced the *Treatise on the Heathen Superstitions That Today Live among the Indians Native to This New*

Spain to aid the church in its abolishment of native Nahua religious practices. The bilingual Nahuatl-Spanish Treatise collected diverse incantations, or *nahualtoaitl*, used to conjure Mesoamerican deities for daily sustenance and medical activities. Today this work is recognized as one of the most significant firsthand records of indigenous religious practices in postconquest Mexico. Yet, as Viviana Díaz Balseira argues in *Guardians of Idolatry*, the selection process for the incantations recorded in the Treatise reflects two sites of agency: Ruiz de Alarcón's desire to present the most flagrant examples of Nahua "demonic" practices, and Nahua efforts to share benign *nahualtoaitl* in order to preserve their preconquest traditions while negotiating with colonial Christian hegemony. *Guardians of Idolatry* offers readers a rare, in-depth look at the *nahualtoaitl* and the native cosmogonies, beliefs, and medical practices they reveal. Through close reading of four incantations—for safe travel, maguey sap harvesting, bow-and-arrow deer hunting, and divination through maize kernels—Díaz Balseira shows the nuances of a Nahua spiritual world populated by intelligent superhuman and nonhuman entities that directly responded to human appeals for intercession. She also addresses Jacinto de la Serna's *Manual for Ministers of These Indians* (1656), an elaborate commentary on the Treatise. *Guardians of Idolatry* tells a compelling story of the robust presence of a unique form of Postclassic Mesoamerican ritual knowledge, fully operative one hundred years after the incursion of Christianity in south Central Mexico. Together, Ruiz de Alarcón's Treatise and de la Serna's *Manual* reveal the highly sophisticated language of the *nahualtoaitl*, and the disparate ways in which both colonizers and resilient indigenous agents contributed to the conservation of Mesoamerican epistemology.

Salsa, Soul, and Spirit Sep 22 2019 Tapping the potential of the changing workforce, consumer base, and citizenry requires a leadership approach that resonates with our country's growing diversity. In "Salsa, Soul, and Spirit," Juana Bordas shows how incorporating Latino, African American, and American Indian approaches to leadership into the mainstream has the potential to strengthen leadership practices and inspire today's ethnically rich workforce. Bordas identifies eight core leadership principles common to all three cultures, principles deeply rooted in each culture's values and developed under the most trying conditions. Using a lively blend of personal reflections, interviews, and historical background, she shows how these principles developed and illustrates the creative ways they've been put into practice in these communities (and some forward-looking companies). Bordas brings these principles together

into a multicultural leadership model that offers a more flexible and inclusive way to lead and a new vision of the role of the leader in the organization. Multicultural leadership resonates with many cultures and encourages diverse people to actively engage. In a globalized economy, success for leaders in the future will rest on their ability to shift to a multicultural approach. "Salsa, Soul, and Spirit" provides conceptual and practical guidelines for beginning that process.

The Guardians in Action Jan 27 2020 If you've ever wondered why Plato staged *Timaeus* as a kind of sequel to *Republic*, or who its unnamed missing fourth might be; or why he joined *Critias* to *Timaeus*, and whether or not that strange dialogue is unfinished; or what we should make of the written critique of writing in *Phaedrus*, and of that dialogue's apparent lack of unity; or what is the purpose of the long discussion of the One in the second half of *Parmenides*, and how it relates to the objections made to the *Theory of Forms* in its first half; or if the revisionists or unitarians are right about *Philebus*, and why its *Socrates* seems less charming than usual, or whether or not *Cratylus* takes place after *Euthyphro*, and whether its far-fetched etymologies accomplish any serious philosophical purpose; or why the philosopher *Socrates* describes in the central digression of *Theaetetus* is so different from *Socrates* himself; then you will enjoy reading the continuation of William H. F. Altman's *Plato the Teacher: The Crisis of the Republic* (Lexington; 2012), where he considers the pedagogical connections behind "the post-*Republic* dialogues" from *Timaeus* to *Theaetetus* in the context of "the Reading Order of Plato's dialogues." *Marked* May 23 2022 READERS FAVORITE AWARDS WINNER 2011 Sixteen-year-old Kara Nightingale's ordinary life is suddenly turned upside down when she dies and wakes up in a strange new world with a new career—as a rookie for the Guardian Angel Legion. Mothers, Warriors, Guardians of the Soul Jan 07 2021 This study shows that women involved in National Socialism in the years 1924 - 1934 developed and shaped a recognizable discourse which communicated and reflected their position and status within the NS movement. The analysis is based on a variety of text-types produced by members of NS women's organisations, and includes official correspondence, circulars, reports, pamphlets, monographs and articles from NS women's journals. It draws upon several areas of linguistic theory, including feminist linguistics, semantics, pragmatics and discourse analysis, and the salient features identified in the female discourse are placed within a sociolinguistic framework. While previous research into the language of the NS-system has largely ignored the possibility of a cohesive female discourse, the study supports the idea that this discourse was dynamic, and at times heterogeneous, whilst also displaying many self-defining and self-

referential features. It is characterised by its ambiguities and apparent contradictions, which expresses separateness and difference, yet also solidarity with the NSDAP.

Keepers of the Soul Jan 19 2022 The five elements - Wood, Fire, Earth, Metal and Water - are fundamental to Chinese medicine and metaphysics, but it can be difficult to get beyond the purely intellectual level of understanding. This rich book gets to the heart of five element theory, and offers passionate reflections on the spirit of each element, and the practice of five element acupuncture. The author provides accessible accounts of each element, explaining what it looks like, how it presents in an individual's characteristics, how it can become unbalanced and how treatment might be approached to restore balance. With profiles of various well-known figures, including David Beckham and Elvis Presley, the author explores what it means to live in harmony as a unique being and how the five elements help shape and cultivate our body and soul. The book explains how Chinese physicians understand and diagnose their patients and offers invaluable insights into how to practise five element acupuncture effectively. A valuable and thoughtful addition to any library, this book will be of particular interest to acupuncturists, practitioners and students of complementary medicine as well as anyone contemplating Chinese medicine as a treatment option or interested more generally in human psychology.
