Marketing to the Social Web Sep 29 2019 Praise for Marketing to the Social Web "Weber understands that the world is going digital and that competitive advantage will accrue to those who understand the transformation. CEOs should heed this transformation and learn from Weber's insights how to navigate this new landscape to fully maximize their business opportunities." -Mark Fuller, Chairman, Monitor Group "Consumers are using technology to grab power from companies, the media, and the government. Marketing to the Social Web succinctly outlines how institutions can survive and win in this chaotic new world, and lays out the revised rules of engagement-ignore them at your peril." -George F. Colony, CEO, Forrester Research, Inc. "Larry has brought pragmatic and useful recommendations to help brand builders manage the complexity of social interaction in a digital age. I was pleased to read a book that actually suggests how to do something with social networks, instead of just ponder them." -David Kenny, Chairman and Chief Executive Officer, Digitas Inc. "Where's the allure of social 2.0? Brands can talk . . . customers talk louder! Digital influence has arrived." -Jeff Taylor, CEO, Eons and Founder of Monster.com "Larry Weber provides a simple and effective roadmap of the new customer information highway. Marketing to the Social Web is a valuable tool that will give everyone the confidence and know-how to compete in this fast-growing marketplace of ideas." -Steve Harris, Vice President, Global Communications, General Motors Corporation "As all lines and boundaries are washed away by the Web, Weber describes how to become part of the sea versus the sand." -Nicholas Negroponte, Chairman, One Laptop per Child

**Securitization, Structured Finance and Capital Markets** Dec 01 2019 This book is now available in paperback. Securitization, Structured Finance, and Capital Markets provides an introduction to securitization as a method of financing. It is suitable for an independent course or seminar in securitization and structured finance, and may also be used as supplementary reading or as advanced examples in courses in bankruptcy, secured transactions, trusts, corporations, securities regulation, corporate finance, tax, banking, or accounting. The book is organized by substantive legal areas. The first chapter provides an overview of securitization and is a terrific starting point for anyone trying to learn more about this \$6 trillion industry where assets as diverse as car loans, credit card debt, student loans, home mortgages, and commercial mortgages are securitized to provide the loan originator with a source of capital at lower cost than might otherwise be available. The first chapter introduces securitization through a detailed discussion of an actual securitization of loans made to purchasers of Hondas. The Honda deal is followed as an example throughout the subsequent chapters and numerous documents from the deal are reprinted in the book. Students should benefit from the concrete example and the opportunity to examine the actual

legal documents used to implement this type of financing transaction. Subsequent chapters of the book examine Article 9 of the UCC, the Bankruptcy Code, accounting issues, tax and other considerations, securities laws, and the Investment Company Act. There is a separate chapter focused on special concerns of banks securitizing loans, a chapter on international and cross-border issues in securitization, and a concluding chapter exploring the academic debate relating to the efficiency of securitization. Each chapter of the book contains discussion questions, and these questions are thoroughly addressed in the Teacher's Manual (available only to professors).

**Petrification Processes in Matter and Society** Mar 04 2020 Petrification is a process, but it also can be understood as a concept. This volume takes the first steps to manifest, materialize or “petrify” the concept of “petrification” and turn it into a tool for analyzing material and social processes. The wide array of approaches to petrification as a process assembled here is more of a collection of possibilities than an attempt to establish a firm, law-generating theory. Divided into three parts, this volume’s twenty-plus authors explore petrification both as a theoretical concept and as a contextualized material and social process across geological, prehistoric and historic periods. Topics connecting the various papers are properties of materials, preferences and choices of actors, the temporality of matter, being and becoming, the relationality between actors, matter, things and space (landscape, urban space, built space), and perceptions of the following generations dealing with the petrified matter, practices, and social relations. Contributors to this volume study specifically whether particular processes of petrification are confined to the material world or can be seen as mirroring, following, triggering, or contradicting changes in social life and general world views. Each of the authors explores - for a period or a specific feature - practices and changes that led to increased conformity and regularity. Some authors additionally focus on the methods and scrutinize them and their applications for their potential to create objects of investigation: things, people, periods, in order to raise awareness for these or to shape or “invent” categories. This volume is of interest to archaeologists, geologists, architectural historians, conservationists, and historians.

*Wills, Trusts, and Estates* Aug 01 2022 *Wills, Trusts, and Estates: The Essentials* (“Essentials”) offers a sleek and slender presentation of wealth transfer law for an introductory law school course. Written by widely recognized scholars in the field, this text comprehensively yet concisely covers the core legal principles that are tested on the bar exam and essential to a trusts and estates practice. For a fresh perspective, *Essentials* incorporates current events, lively cases, and engaging examples. It also enables students to maximize out-of-class preparation time by delivering information efficiently in a streamlined and straightforward way. Each chapter contains: (1) clearly explained summaries of each doctrine, (2) explanatory narration accompanying all relevant statutory authority, (3) thoroughly edited judicial opinions followed by analytical questions and answers, and (4) realistic problem sets designed for classroom instruction that illustrate and apply each concept. New to the Second Edition: Additional core topics, including: federal constitutional law and racial discrimination in testamentary gifts; survival and wrongful death actions; forgery; tortious interference with an inheritance expectancy; electronic and do-it-yourself wills; tax apportionment clauses; waiver of spousal elective share by agreement; revocation of insurance beneficiary designations; directed trusts; and the Tax Cuts and Jobs Act of 2017. New cases, including recent decisions by the United States Supreme Court, and new statutes, including uniform acts on electronic wills and directed trusts. New selection of meaningful secondary sources, including relevant empirical scholarship drawn from our own research and other prominent scholars. Professors and students will benefit from: A text that makes a challenging course accessible, lively, and interactive. It is concise yet comprehensive, and adaptable for two, three, and four credit courses. An emphasis on the development of problem-solving skills by presenting problem sets that allow students to apply newly learned legal doctrine in realistic scenarios, mostly based on litigated cases. Many problem sets are as detail-rich as the cases, which facilitates in-depth discussion of doctrinal nuance. Legal doctrine

explained up front and in plain English. According to student feedback, the inclusion of plain English doctrinal summaries often obviates the need for students to purchase a study supplement. For professors, this format provides a baseline on which to build a livelier and sophisticated classroom discussion of the cases and problem sets. The questions and answers following the judicial decisions that encourage student self-assessment. Accompanying family tree diagrams in the textbook (and on the PowerPoint teaching slides) in addition to most judicial opinions, thereby allowing students to quickly ascertain the facts of each case and focus on the application of law.

**Killer Airbags** Oct 03 2022 Buckle up! ... settle in ... and learn how Takata and greedy automakers betrayed public safety by installing ticking time bombs in more than 70 million cars. Hundreds of people have been killed or maimed by airbag explosions and thousands more will suffer if they don't claim their "free fix" now. Takata's killer airbags sparked the biggest safety recall of cars or any other consumer product in history. Government regulators were complicit in much of this horror show, so don't expect them to protect you. Vehicle owners must take personal responsibility to rid their cars of Takata airbags. Tens of millions of airbag inflators will have to be replaced more than once. In this first-person account, you will see how the car industry put a price tag on all our heads - and what we must do to protect ourselves and the people we love.
