When people should go to the books stores, search initiation by shop, shelf by shelf, it is truly problematic. This is why we give the books compilations in this website. It will entirely ease you to look guide **Philosophical Hermeneutics Hans Georg Gadamer** as you such as.

By searching the title, publisher, or authors of guide you in fact want, you can discover them rapidly. In the house, workplace, or perhaps in your method can be every best place within net connections. If you object to download and install the Philosophical Hermeneutics Hans Georg Gadamer, it is very easy then, in the past currently we extend the member to purchase and make bargains to download and install Philosophical Hermeneutics Hans Georg Gadamer as a result simple!

Praise of Theory May 04 2020 This collection of speeches and essays clarifies Gadamer's thoughts on the power of language, the social role and influence of science, and the idea of reason. He argues that the theoretical pursuit of truth is valuable for its own sake, and devalued when pursued explicitly for practical purposes.

Gadamer Sep 07 2020 Hans-Georg Gadamer is one of the leading philosophers in the world today. His philosophical hermeneutics has had a major impact in a wide range of disciplines, including the social sciences, literary criticism, theology and jurisprudence. *Truth and Method*, his major work, is widely recognised to be one of the great classics of twentieth-century thought. In this book Georgia Warnke provides a clear and systematic exposition of Gadamer's work, as well as a balanced and thoughtful assessment of his views. Warnke gives particular attention to the ways in which Gadamer's work has been taken up and criticised by literary critics, social theorists and philosophers, such

as Hirsch, Habermas and Rorty. She thus provides an introduction to Gadamer which demonstrates the relevance of his work to current debates in a variety of disciplines. This book will be invaluable to students and specialists throughout the humanities and social sciences, as well as to anyone who is interested in the most important developments in contemporary thought.

Gadamer and Hermeneutics Jan 30 2020 This title, first published in 1991, opens with an account by Gadamer of his own life and work and their relation to the achievements of hermeneutics. Building upon the key theme of dialogue, *Gadamer and Hermeneutics* provides a series of essays, either linked Gadamer to other major contemporary philosophers or focusing on a given Gadamerian theme. This book will be of interest to students of literary theory.

Unfinished Worlds Mar 26 2022 Gadamer's aesthetics demonstrates that the experience of art is grounded in the objectivities of language, history and tradition. By treating words and images as transmittable placeholders for meanings and concepts, hermeneutics gives a persuasive account of how artworks communicate. Davey demonstrates how hermeneutics transforms aesthetic reflection into a poignant attentive practice that is open to the unexpected. This new "poetics" is relevant not only to the understanding of art but also to showing, explaining and defending the cognitive content of the humanities. Hermeneutic aesthetics provides a sound basis for re-thinking humanities disciplines as critical-creative practices able to re-envision the future.

Dialogue and Dialectic Oct 28 2019 The author approaches Plato's dialogues as live discussions in which the concrete concerns of the participants define the horizons of discourse. He takes up such perplexing problems of Plato's thought as the role of poetry in the state and the theory of ideal numbers and brings to them a fresh understanding. With its emphasis on the dialogue form and the dramatic situation, this work complements the main tendencies of the analytical tradition which

dominates contemporary Anglo-Saxon writing on Plato.

Contemporary Hermeneutics Feb 10 2021 Hermeneutics can loosely be defined as the theory or philosophy of the interpretation of meaning. It is a central topic in the philosophy of the social sciences, the philosophy of art and language and in literary criticism. This book, first published in 1980, gives a detailed overview and analysis of the main strands of contemporary hermeneutical thought. It includes a number of readings in order to give the reader a first-hand acquaintance with the subjects and the debates within it.

Hans-Herbert Kögler's Critical Hermeneutics Apr 02 2020 Providing a comprehensive engagement with the work of Hans-Herbert Kögler, this is the first volume to expand upon and critique his distinctive approach to critical theory: critical hermeneutics. In the current climate of crisis, the relevance and fruitfulness of Kögler's work has never been greater, as he fuses the philosophies of Michel Foucault, Hans Georg Gadamer, and his mentor, Jürgen Habermas, to respond to critical international issues surrounding politics, agency, and society. Working towards a truly non-ethnocentric and global conception of intercultural dialogue, an essential aspect of Kögler's critical hermeneutics is his account of selfhood as reflexive: socially situated, embodied, and linguistically articulated, permeated by power, but yet critical and creative. Leading international scholars, representing a variety of disciplinary backgrounds, build upon Kögler's approach in this volume and explore the methodological, theoretical, and applicative scope of critical hermeneutics beyond the Frankfurt School. In doing so, they address some of the most pressing issues facing global society today, from multilingual education to the urgent need for interreligious and intercultural understanding. Closing with a response from Kögler himself, *Hans-Herbert Kögler's Critical Hermeneutics* also offers an exclusive account of the philosopher's contemporary re-appraisal of the

core tenets of critical hermeneutics.

The Hermeneutics of Translation May 16 2021 This is the first monograph to examine the notion of a translator's competence from the perspective of Gadamerian hermeneutics. The study's main objective is to depict different conceptualizations of translation as based on Hans-Georg Gadamer's philosophy of understanding and also to develop a theory of a translator's hermeneutic competences....

The Aesthetic Hermeneutics of Hans-Georg Gadamer and Hans Urs Von Balthasar Aug 19 2021 Through a comparison of their aesthetics and hermeneutics, this book reveals that both Gadamer and Balthasar reject an autonomous, neutral, distanced starting point for interpretation. Instead, they advocate a dialogical model in which interpreters allow themselves to be engaged by the truth of the text or artwork at hand. Both thinkers use aesthetic categories to describe this model of interpretation (such as the neo-Platonic category of radiance) and both reflect a disclosure-concealment theory of truth. In recognizing that interpreters are part of an unfolding history and that the examination of historical texts cannot be done from a neutral standpoint, they both acknowledge that textual interpretation must contain the dimension of dialogue with the past truths. Significantly, Balthasar incorporates these aesthetic and hermeneutical categories into an explicitly Trinitarian salvation-history framework, which is absent in Gadamer's thought. This book concludes with the implications of an aesthetic hermeneutics for contemporary Roman Catholic theology and its dialogue with various schools of thought (philosophical and religious), arguing that the concrete, particular forms of Christianity as expressed in Roman Catholicism cannot be bracketed or evacuated by Catholic theologians in the interest of achieving consensus in religious matters. To the contrary, it is precisely in these forms that we believe that God's revelation takes place.

Hans-Georg Gadamer on Education, Poetry, and History Jun 28 2022 In these essays, appearing for the first time in English, Gadamer addresses practical questions about recent politics in Europe, about education and university reform, and about the role of poetry in the modern world. This book also includes a series of interviews that the editors conducted in 1986. Gadamer elaborates on his experiences in education and politics, touching on the collapse of the Weimar Republic, the early Frankfurt School, Heidegger and the Nazis, university life in East Germany, and the prospects for Europe in the coming years. Hans-Georg Gadamer was probably Heidegger's leading interpreter in Germany, and in the 1950s and 1960s he became the world's leading exponent of hermeneutics. His hermeneutical theory explains how it is that ancient art and philosophy still speak to us today. His influential idea of the "fusion of horizons" also shows how it is that we understand what is remote from our own culture.

On Beauty and Being: Hans-Georg Gadamer's and Virginia Woolf's Hermeneutics of the Beautiful Apr 14 2021 The book is a meditation on beauty and Being, interrogating affinities between Hans-Georg Gadamer's philosophical hermeneutics and Virginia Woolf's philosophy of beauty and Being embodied in her oeuvre. It addresses beauty as a mode of being rather than a mere adornment of human existence.

Gadamer in Conversation Jan 12 2021 This volume presents six lively conversations with Hans-Georg Gadamer (born 1900), one of the twentieth century's master philosophers. Looking back over his life and thought, Gadamer takes up key issues in his philosophy, addresses points of controversy, and replies to his critics, including those who accuse him of having been in complicity with the Nazis. A genial and direct conversationalist, Gadamer is here captured at his best and most accessible. The interviews took place between 1989 and 1996, and all but one appear in English for the first time in

this volume. The first three conversations, conducted by Heidelberg philosopher Carsten Dutt, deal with hermeneutics, aesthetics, and practical philosophy and the question of ethics. In a fourth conversation, with University of Heidelberg classics professor Glenn W. Most, Gadamer argues for the vital importance of the Greeks for our contemporary thinking. In the next, the philosopher reaffirms his connection with phenomenology and clarifies his relation to Husserl and Heidegger in a conversation with London philosopher Alfons Grieder. In the final interview, with German Nazi expert Dorte von Westernhagen, Gadamer describes his life

Gadamer's Hermeneutics and the Art of Conversation Jun 16 2021 Gadamer's Hermeneutics and the Art of Conversation covers the nature of dialogue and understanding in Hans-Georg Gadamer's linguistically oriented hermeneutics and its relevance for contemporary philosophy. This timely collection of essays stresses the fundamental significance of the other for a further development of Heidegger's analytics of Dasein. By recognizing the priority of the other over oneself, Gadamerian hermeneutics founds a culture of dialogue sorely needed in our multi-cultural globalized community. The essays solicited for this volume are presented in three thematic blocks: "Hermeneutic Conversation," "Hermeneutics, Aesthetics, and Transcendence," "Hermeneutic Ethics, Education, and Politics." The volume proposes a dynamic understanding of hermeneutics as putting into practice the art of conversation.

Gadamer's Century Dec 23 2021 Philosopher Hans-Georg Gadamer has made major contributions to aesthetic theory, Plato and Hegel studies, humanistic studies, and the philosophy of history. A student of Martin Heidegger, Gadamer took up and developed a number of central Heideggerian insights. He also had productive public debates with contemporaries such as Emilio Betti and Jürgen Habermas. The shape of contemporary hermeneutics is due almost entirely to Gadamer's influence,

and his magnum opus, *Truth and Method*, is considered one of the great philosophical works of the twentieth century. This book is dedicated to Gadamer in honor of his hundredth birthday, in 2000. The essays provide a measure of the classical character of Gadamer's work by showing the breadth of engagement his ideas have provoked. As in Gadamer's own life and work, dialogue and conversation figure as important themes in all of the essays. While they encompass a diversity of philosophical perspectives, interests, and styles, the essays also suggest the ever-present possibility of dialogue across language and tradition and of the formation of new modes of discourse and philosophizing.

Hermeneutics between History and Philosophy Aug 31 2022 *Hermeneutics between History and Philosophy* collects together Gadamer's remaining important untranslated writings on the problem of history and the major philosophical traditions of the 20th century from the standpoint of hermeneutics. In these writings, Gadamer examines important thinkers as Husserl, Heidegger, Sartre, Bourdieu and Habermas and their ongoing legacies. This volume also includes a preface by the editors, who are also the translators, presenting the structure of the volume, a substantial introduction situating Gadamer's particular project and examining the place of hermeneutics vis-a-vis the disciplines of history and philosophy in the 20th century. The translation is followed by a glossary of German terms and Greek and Latin expressions, as well as a bibliography of all the works cited and alluded to by Gadamer.

Truth and Method Sep 19 2021 "Truth and Method is a landmark work of 20th century thought which established Hans Georg-Gadamer as one of the most important philosophical voices of the 20th Century. In this book, Gadamer established the field of 'philosophical hermeneutics': exploring the nature of knowledge, the book rejected traditional quasi-scientific approaches to establishing

cultural meaning that were prevalent after the war. In arguing the 'truth' and 'method' acted in opposition to each other, Gadamer examined the ways in which historical and cultural circumstance fundamentally influenced human understanding. It was an approach that would become hugely influential in the humanities and social sciences and remains so to this day in the work of Jurgen Habermas and many others"--Provided by publisher.

Philosophical Hermeneutics Jul 30 2022 Published in German during the last 15 years, the 13 essays in this volume provide readers with valuable knowledge of the much discussed theme of hermeneutics today. Gadamer was an early student of Martin Heidegger and has been a lifelong friend and interpreter. These essays are an outgrowth of Gadamer's Truth and Method. They can be understood, however, independently of it. Gadamer's standpoint is a blend of Hegel's and Heidegger's, with his own independent development in part. The book contains a long and highly competent introduction by the editor, David E. Linge, who has translated most of the essays. - Choice, on back cover.

Truth and Method Jun 24 2019 Truth and Method is a landmark work of 20th century thought which established Hans Georg-Gadamer as one of the most important philosophical voices of the 20th Century. In this book, Gadamer established the field of 'philosophical hermeneutics': exploring the nature of knowledge, the book rejected traditional quasi-scientific approaches to establishing cultural meaning that were prevalent after the war. In arguing the 'truth' and 'method' acted in opposition to each other, Gadamer examined the ways in which historical and cultural circumstance fundamentally influenced human understanding. It was an approach that would become hugely influential in the humanities and social sciences and remains so to this day in the work of Jurgen Habermas and many others.

Philosophical Hermeneutics Nov 02 2022 'This volume presents carefully selected essays from Gadamer's *Kleine Schriften*. The seven essays comprising Part 1 contain Gadamer's discussion of hermeneutical reflection. Part 2 consists of six essays dealing with phenomenology, existential philosophy, and philosophical hermeneutics.

The Relevance of the Beautiful and Other Essays Jul 18 2021 These essays explore Hans-Georg Gadamer's writings on art and literature in English.

The Linguistic Turn in Hermeneutic Philosophy Sep 27 2019 Cristina Lafont draws upon Hilary Putnam's work in particular to criticize the linguistic idealism and relativism of the German tradition, which she traces back to the assumption that meaning determines reference.

Hans-Georg Gadamer Aug 26 2019 Hans-Georg Gadamer's theory of hermeneutics is one of the most important modern theories of interpretation and understanding, and at its heart is the experience of reading literature. In this clear and comprehensive guide to Gadamer's thought, Karl Simms: presents an overview of Gadamer's life and works, outlining his importance to hermeneutic theory and its place in literary studies explains and puts into context his key ideas, including 'dialogue', 'phronsis', 'play', 'tradition', and 'horizon' shows how Gadamer's ideas have been influential in the interpretation of literary texts explains Gadamer's debates with key contemporaries and successors, such as Habermas, Ricoeur and Derrida provides detailed suggestions for further reading. With a significance that crosses disciplinary boundaries from cultural studies, literary theory and philosophy through to history, music and fine arts, Gadamer's pioneering work on hermeneutic theory remains of crucial importance to the study of texts in the humanities.

Political Hermeneutics Oct 01 2022 A distinct logic to Gadamer's early writings makes them more than mere precursors to the mature thought that appeared in *Truth and Method*. They contain their

own, new and different, "philosophical hermeneutics" and are worth reading with a fresh eye. The young Gadamer began his publication career by arguing that Plato's ethical writings did not "express" doctrine but rather depended upon the "play" of language among speakers in an ethical discourse community. This was the key idea of Plato's Dialectical Ethics, Gadamer's first book. Following the classical formula of seeing politics as the continuation of ethics, Gadamer's writings in the 1930s and 1940s concentrated on the Platonic idea of the state and argued two key points. First, the exiling of poets from the city was a way of banishing monologue and clearing the way for a dialogue as the language form appropriate to political discourse communities. Second, the Platonic state's defining task was the educational one of shaping the soul, and this could not be achieved monologically but rather had to take place as a dialogical play between the educator and the soul. The mature philosophical hermeneutics of Truth and Method is a metaphor taken from the literary experience of constructing textual meaning out of the play of parts and whole. The philosophical hermeneutics of Gadamer's early writings rests on a play between the ethical whole initially the Gestalt figure of the "Platonic Socrates" but later the Platonic state and the individual soul in need of ethical guidance. There is no conflict between the early and the later hermeneutics, but the early hermeneutics retain a freshness of spirit and boldness of interpretation that is characteristic of the Weimar culture of Gadamer's Marburg youth. From beginning to end, Gadamer's early writings remind us that Plato's dialogues really do record the conversational essence of Western philosophy at its birth.

Gadamer and Ricoeur Dec 11 2020 Hans-Georg Gadamer and Paul Ricoeur were two of the most important hermeneutical philosophers of the twentieth century. Gadamer single-handedly revived hermeneutics as a philosophical field with his many essays and his masterpiece, Truth and Method.

Ricoeur famously mediated the Gadamer-Habermas debate and advanced his own hermeneutical philosophy through a number of books addressing social theory, religion, psychoanalysis and political philosophy. This book brings Gadamer and Ricoeur into a hermeneutical conversation with each other through some of their most important commentators. Twelve leading scholars deliver contemporary assessments of the history and promise of hermeneutical philosophy, providing focused discussion on the work of these two key hermeneutical thinkers. The book shows how the horizons of their thought at once support and question each other and how, in many ways, the work of these two pioneering philosophers defines the issues and agendas for the new century.

On Universal Hermeneutics Mar 14 2021

Phenomenology and the Human Sciences Jul 26 2019

Festivals of Interpretation Oct 21 2021 This book engages and clarifies concepts crucial to Hans-Georg Gadamer's philosophical hermeneutics, including the concepts of effective-history, tradition, dialogue, and language. Festivals of Interpretation exhibits the universal scope of hermeneutics. The authors respond to three questions often raised about Gadamer's philosophical hermeneutics. Part One takes up the question of how Gadamer understands truth. It discusses how hermeneutical truth relates to methods, how truth may be thought to be historically conditioned without at the same time being relative, and how a truthful interpretation can produce a new understanding while simultaneously remaining faithful to the text. Part Two brings out the political, legal, and social relevance of Gadamer's philosophical hermeneutics by focusing on the role interpretation plays in times of political crisis, of disputes in Constitutional law, of changing ideas of societal needs such as health care, and of increased technological control of public opinion. The last question often asked about Gadamer's work concerns its relation to poetry. Part Three treats the challenge posed to

philosophy by poetry in general and particularly by the poetry of Paul Celan as well as questions raised recently by Jacques Derrida about different ways of thinking about interpretation and text. **Hermeneutics, Religion, and Ethics** May 28 2022 In the years shortly before and after the publication of his classic *Truth and Method* (1960), the eminent German philosopher Hans-Georg Gadamer returned often to questions surrounding religion and ethics. In this selection of writings from *Gesammelte Werke* that are here translated into English for the first time, Gadamer probes deeply into the hermeneutic significance of these subjects. Gadamer raises issues of importance to ethicists and theologians as well as students of language and literature. In such outstanding essays as "Kant and the Question of God," "Thinking as Redemption: Plotinus between Plato and Augustine," and "Friendship and Self-Knowledge: Reflections on the Role of Friendship in Greek Ethics," Gadamer discusses the nature of moral behavior, ethics as a form of knowing, and the hermeneutic task of mediating ethos and philosophical ethics with one another.

Jurgen Habermas Mar 02 2020 The most important intellectual in the Federal Republic of Germany for the past three decades, Habermas has been a seminal contributor to fields ranging from sociology and political science to philosophy and cultural studies. Although he has stood at the centre of concern in his native land, he has been less readily accepted outside Germany, particularly in the humanities. His theoretical work postulates the centrality of communication and understanding, and as such his strategy of debate is marked by a politically informed unity of theory and practice. Holub's book is the first detailed account of the major debates in which Habermas has engaged since the early sixties. It stems from the conviction that his critics have not understood the political strategy behind his various interventions, or the consistency that informs his intellectual activities. Habermas is viewed in dialogue with important philosophical, sociological and political

currents in West Germany. Holub demonstrates how Habermas pursues a course that incorporates various aspects of his opponents' positions, while simultaneously defending perceived threats to democracy and open discussion.

Humanism and Religion Feb 22 2022 Jens Zimmermann suggests that the West can rearticulate its identity and renew its cultural purpose by recovering the humanistic ethos that originally shaped Western culture. He traces the religious roots of humanism, and combines humanism, religion and hermeneutic philosophy to re-imagine humanism for our current cultural and intellectual climate.

Gadamer and Law Oct 09 2020 Hans-Georg Gadamer's philosophical hermeneutics is especially relevant for law, which is grounded in the interpretation of authoritative texts from the past to resolve present-day disputes. In this collection, leading scholars consider the importance of Gadamer's philosophy for ongoing disputes in legal theory. The work of prominent philosophers, including Fred Dallmayr, P. Christopher Smith and David Hoy, is joined with the work of leading legal theorists, such as William Eskridge, Lawrence Solum and Dennis Patterson, to provide an overview of the connections between law and Gadamer's hermeneutical philosophy. Part I considers the relevance of Gadamer's philosophy to longstanding disputes in legal theory such as the debate over originalism, the rule of law and proper modes of statutory and constitutional exegesis. Part II demonstrates Gadamer's significance for legal theory by comparing his approach to the work of Nietzsche, Habermas and Dworkin.

The Philosophy of Hans-Georg Gadamer Nov 09 2020 Hans-Georg Gadamer is one of the leading exponents of hermeneutics, with a formidable influence on thinking in the humanities. The two main foci of his work have been Greek philosophy, especially Plato, and hermeneutics, but his influences range through many sources, from Kant to Heidegger. This volume contains Gadamer's intellectual

autobiography, essays by leading philosophers, Gadamer's replies to each essay, and a bibliography of Gadamer's writings.

The Gadamer Reader Aug 07 2020 This volume begins with an autobiographical sketch and culminates in a conversation with Jean Grondin that looks back over a lifetime of productive philosophical work.

Hans-Georg Gadamer Jul 06 2020 This book provides an introduction to Hans-Georg Gadamer's thinking and shows how it might inform our own thinking about education as a lifelong process of engaging with one another and with the wider world. He insisted on the supreme importance of prior learning, but also on the unpredictability of human understanding and on the possibility of new and unforeseeable beginnings. Having lived through the catastrophe of two world wars, he became an important voice in the debate on the future of a reunified Germany and the role of the university in shaping the values and outlook of the new Europe. His work is of immense significance for all those involved in the education of future generations. 'In *Gadamer: The Hermeneutical Imagination*, Jon Nixon has pulled off quite a feat. In his customary lucid, accessible and dialogical style, we are treated to a masterly tour that both opens the complex thinking of Hans-Georg Gadamer and draws out its implications for our understanding of education. In the process, a strong critique emerges of contemporary instrumental approaches to education. Many will assuredly gain much from this enjoyable text, both those interested in Gadamer as such and those working in the philosophy of education.' Ronald Barnett, Emeritus Professor of Higher Education, UCL Institute of Education, UK 'This book simultaneously invites the reader to engage with the transformative potential of education and provokes the reader to imagine an educational landscape that values freedom, democracy and authenticity. Jon Nixon skilfully and eloquently draws the reader into the

philosophies, life and legacy of Hans-Goerg Gadamer, a key thinker of the 20th century. Meticulously researched, this original study offers a biographical insight as well as critical commentary on Gadamer's contribution to wider educational debates. An impressive contribution to the field.' Tanya Fitzgerald, Professor of History of Education, La Trobe University, Australia 'Gadamer: The Hermeneutical Imagination provides an excellent introduction to Gadamer's key ideas. Jon Nixon draws his readers into a conversation with Gadamer, inviting them to imagine the possibility of applying Gadamer's hermeneutical philosophy to their own educational practice. It is essential reading for all those who have an interest in - and commitment to - the future of education.' Feng Su, Senior Lecturer in Education, Liverpool Hope University, UK

Hermeneutics and the Humanities Apr 26 2022 Hans-Georg Gadamer's "Wahrheit und Methode" (1960) is one of the most influential books on interpretation to have appeared in the past half century. This volume aims to continue this conversation between hermeneutics and the humanities, but also tries to map Gadamer's influence on the humanities so far

Hermeneutics: A Very Short Introduction Jun 04 2020 Hermeneutics is the branch of knowledge that deals with interpretation, a behaviour that is intrinsic to our daily lives. As humans, we decipher the meaning of newspaper articles, books, legal matters, religious texts, political speeches, emails, and even dinner conversations every day . But how is knowledge mediated through these forms? What constitutes the process of interpretation? And how do we draw meaning from the world around us so that we might understand our position in it? In this Very Short Introduction Jens Zimmermann traces the history of hermeneutic theory, setting out its key elements, and demonstrating how they can be applied to a broad range of disciplines: theology; literature; law; and natural and social sciences. Demonstrating the longstanding and wide-ranging necessity of interpretation,

Zimmermann reveals its significance in our current social and political landscape. ABOUT THE SERIES: The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area. These pocket-sized books are the perfect way to get ahead in a new subject quickly. Our expert authors combine facts, analysis, perspective, new ideas, and enthusiasm to make interesting and challenging topics highly readable.

[Feminist Interpretations of Hans-Georg Gadamer](#) Nov 21 2021

Gadamer Dec 31 2019 Highlights the central place of Greek philosophy, particularly Plato, in "Truth and Method" philosopher Hans-Georg Gadamer's work, brings out differences between his thought and that of Heidegger and connects him with discussions and debates in pragmatism.

The Cambridge Companion to Gadamer Nov 29 2019 The most convenient and accessible guide to Gadamer currently available.

Language and Linguisticity in Gadamer's Hermeneutics Jan 24 2022 In this book, internationally recognized scholars in philosophical hermeneutics discuss various aspects of language and linguisticity. The translations of Hans-Georg Gadamer's two recent essays provoke a preliminary discussion on the philosopher's polemic claim in Truth and Method--"Being that can be understood is language." Topics addressed by the contributors include the relationship of rituals to tradition and the immemorial; the unity of the word; conversation; translation and conceptuality; and the interrelationship between the art of writing and linguisticity. This work is of critical importance to anyone interested in Gadamer's claims regarding the boundaries of language, the transition from the prelinguistic to linguistic realms, and the role of rituals in this transition.
