Transforming the Doctor's Office Oct 11 2020 From the parking lot to the exam room, doctors can improve the physical surroundings for their patients, yet often they do not. Given the numerous and varied duties doctors must perform, it may fall to the design profession to implement changes, many based on research, to improve healthcare experiences. From location and layout to furnishings and positive distractions, this book provides evidence-based information about the physical environment to help doctors and those who design medical workspaces improve the experience of health care. Along with its research base, a special aspect of this book is the integration of relevant historical material about the office practice of physicians at the beginning of the twentieth century. Many of their design solutions are viable today. In addition to improving the physical design of healthcare facilities, author Ann Sloan Devlin is the granddaughter, daughter, and niece of physicians, as well as the granddaughter and daughter of nurses. She worked in a hospital during college, and has visited a good many practitioners' offices in medical office buildings and ambulatory care settings. This book addresses an overlooked location of care: the doctor's office suite.

Louisiana Notary Exam Sample Questions and Answers 2022 Aug 01 2022 NEW FOR 2022: Questions and answers in four separate tests—plus detailed explanations for each right and wrong answer, keyed to the page of the latest official state Study Guide—help coach students for the difficult exam. This unofficial resource at last takes notary prep to the next level by revealing the tricks of questions and formats, tactics for the test, and the law behind it. Louisiana civil law notaries have unmatched functions, responsibilities, and opportunities—but the exam averages a 20% pass rate. Candidates need all the help they can get. The best prep classes and study groups recommend multiple practice questions to understand the format, content, and coverage of the actual exams the Secretary of State administers each year. Yet even the best workbooks and study aids are costly but barebones in the answers they provide. Their questions help, but students are left matching answers to page numbers. There's no guidance on why they're right—and even less about why other good options aren't "best." This book fills that void with 130 questions and detailed clarifications, plus tactics illustrated by specific formats and options. Explanations are keyed in detail to the 2022 Fundamentals (state study guide). Dr. Childress, author of a best-selling supplemental book decoding the state study guide and teacher of Tulane's undergraduate course in notary law, explains every twist he can think of that the examiners may try. Whether as a recommended supplement to a prep class, as spelled-out lagniappe to other available workbooks, or as a new tool for self-study, this workbook should become standard fare for anyone contemplating becoming a commissioned notary. An affordable addition to the Self-Study Sherpa Series from Quid Pro Books.
