Australian Finance Law Dec 11 2020 "Australian Finance Law, 7th Edition provides comprehensive coverage of Australian finance law, including the regulation of the Australian financial system, capital markets, debt finance, taxation and insolvency law. It has been written and compiled by Partners, Consultants and Associates of King & Wood Mallesons. This well-regarded work combines both legal analysis and its practical application to financing transactions. It is designed for general and specialist advisers, combining both fundamental and more complex legal and practical analysis. It is also an important resource for students of Australian financial and commercial law. Although it has been written from a primarily Australian context, a number of the chapters have a more international application, either because of the global nature of

finance, or because of the similarity in legal concepts between common law jurisdictions." --Publisher's website.

Corporate Finance Essentials Feb 10 2021 *Essentials of Corporate Finance*, 7th edition by Ross, Westerfield, and Jordan is written to convey the most important concepts and principles of corporate finance at a level that is approachable for a wide audience. The authors retain their modern approach to finance, but have distilled the subject down to the essential topics in 18 chapters. They believe that understanding the

"why" is just as important, if not more so, than understanding the "how," especially in an introductory course. Three basic themes emerge as their central focus: An emphasis on intuition--separate and explain the principles at work on a common sense, intuitive level before launching into specifics. Underlying ideas are discussed first in general terms, then followed by specific examples that illustrate in more concrete terms how a financial manager might proceed in a given situation. A unified valuation approach--Net Present Value is treated as the basic concept underlying corporate finance. Every subject the authors cover is firmly rooted in valuation, and care is taken to explain how decisions have valuation effects. A managerial focus--Students learn that financial management concerns management. The role of financial manager as decision maker is emphasized and they stress the need for managerial input and judgment.
