Learn Latin from the Romans Aug 02 2020 Learn Latin from the Romans is the only introductory Latin textbook to feature texts written by ancient Romans for Latin learners. These texts, the 'colloquia', consist of dialogues and narratives about daily life similar to those found in modern-language textbooks today, introducing learners to Roman culture as well as to Latin in an engaging, accessible, and enjoyable way. Students and instructors will find everything they need in one complete volume, including clear explanations of grammatical concepts and how Latin works, both British and American orders for all noun and adjective paradigms, 5,000 easy practice sentences, and over 150 longer passages (from the colloquia and a diverse range of other sources including inscriptions, graffiti, and Christian texts as well as Catullus, Cicero, and Virgil). Written by a leading Latin linguist with decades of language teaching experience, this textbook is suitable for introductory Latin courses worldwide.

School Education Aug 22 2019 Originally published in 1905, this book argues that the educational outlook was rather misty and depressing both at home and abroad. That science should be a staple of education, that the teaching of Latin, of modern languages, of mathematics, must be reformed, that nature and handicrafts should be pressed into service for the training of the eye and hand, that boys and girls must learn to write English and therefore must know something of history and literature; and, on the other hand, that education must be made more technical and utilitarian - these, and such as these, are the cries of expedience with which we take the field. But we have no unifying principle, no definite aim; in fact, no philosophy of education.

ECCE Romani Oct 24 2019 Ecce Romani engages students by bringing the history of Roman civilization to life with interesting subjects and a continuous storyline about the life experiences of a typical Roman family living in A.D. 80.

Aeneid VIII Dec 26 2019 Book VIII of the Aeneid presents a crucial turning point in the mythological foundation of Rome, with clear political resonances for the future Augustan regime. Set on the verge of war between the Latins and Aeneas' Trojan forces, it describes Aeneas' visit to the future site of Rome, where he enlists the help of the Arcadian King Evander for the forthcoming war. In confirmation of the gods' support for Aeneas, his mother Venus presents her son with new armour, including a shield depicting key events in the future history of Rome. Their climax is Augustus' victory at Actium over the forces of Mark Antony and Cleopatra. This new edition makes the Latin text accessible to students, with commentary notes providing ample linguistic help, explanation of difficult words and phrases, a glossary of grammatical and literary terminology, and a full list of vocabulary and proper names. The in-depth introduction sets the work in its literary and historical context, and provides an overview of Virgil's metrical and stylistic points.

Latin Epics of the New Testament Jul 13 2021 *Latin Epics of the New Testament* is about the growth of Christianity, and in particular the challenge of engaging with the Roman intellectual elite and its highly sophisticated Graeco-Roman tradition. In this culture epics like those of Vergil and Lucan were highly valued for their language, their 'heroic' themes, and their Rome-centred ideologies. Roger Green examines each of these epics in detail, showing how the three authors Juvenecus, Sedulius, and Arator repackage the New Testament as epic, and try to make a bridge between two very different cultures. He explores the fascinating questions of how these authors exploit epic themes such as gods, heroes, war, and fate, without playing down the very real theological concerns of their times. All these poets were popular in the Middle Ages and later, and are the pioneers of poetry that leads to Renaissance epic and the famous poems of John Milton.

Latin to GCSE Part 1 May 31 2020 A companion to Bloomsbury's popular two-volume *Greek to GCSE*, this is the first course for Latin students that directly reflects the curriculum in a clear, concise and accessible way. Enhanced by colour artwork and text features, the books support the new OCR specification for Latin (first teaching 2016) as well as meeting the needs of later students, both at university and beyond. Written by two experienced school teachers, one also an examiner, the course is based on a keen understanding of what pupils find difficult, concentrating on the essentials and on the explanation of principles in both accidence and syntax: minor irregularities are postponed and subordinated so that the need for rote learning is reduced. User-friendly, it also gives pupils a firm foundation for further study. Part 1 covers the basics and is self-contained, with its own reference section. It outlines the main declensions, a range of active tenses and a vocabulary of 275 Latin words to be learned. Pupil confidence is built up by constant consolidation of the material covered. After the preliminaries, each chapter concentrates on stories with one source or subject: the Fall of Troy, the journeys of Aeneas, the founding of Rome and the early kings, providing an excellent introduction to Roman culture alongside the language study.

ECCE Romani 2 Aug 14 2021 This hardcover edition contains Chapters 28 through 54 of the storyline, plus outstanding support for Word Study, Roman Life, Frontier Life, History, and Mythology. Traditional Magic Spells for Protection and Healing Feb 26 2020 An in-depth collection of ancient spells and magic practices drawn from rare and newly discovered texts • Presents more than 600 magical prescriptions for healing and protection from both pagan and Christian sources • Examines the practice of diagnosing illness through magic and explores ancient beliefs about curses and other evil spells and about devils, demons, and ghosts • Includes spells from the heavily guarded gypsy tradition of magic and healing, drawn from newly discovered materials Since the beginning of history, people have sought remedies for the many ills that have beset them, from illnesses afflicting the body to threats

posed by evil and hostile individuals. In many folk healing and pagan traditions, it was believed that one must gain the assistance of the guardian spirit of a healing plant or substance through prayers or offerings before its chemical properties would be effective. The Church decried these spells and practices as pagan superstition but did not seek to exterminate these beliefs, instead transferring the responsibility for their healing powers to the apostles and saints. Drawing on his extensive knowledge of ancient texts, Claude Lecouteux presents more than 600 magical prescriptions from both pagan and Christian sources from the last 2,000 years, covering everything from abscesses and shingles to curses and healing animals. He examines the practice of diagnosing illness through magic and looks at the origins of disease according to the evolving beliefs of magic practitioners over the centuries. He explores ancient beliefs about curses and about devils, demons, and ghosts and provides an in-depth look at protection magic, including protection of health, animals, and cultivated land, protection against curses, witchcraft, bad weather, and beasts, protection of a home, and protection while traveling. He includes spells from the heavily guarded gypsy tradition of magic and healing, drawn from newly discovered materials collected by two Romanian ethnologists who lived and traveled with gypsies in Transylvania in the mid-19th century. The author also reproduces rare texts on magic healing from the 14th and 15th centuries. Revealing the vitality of these practices in the remoter areas of Eastern Europe, Lecouteux shows how the influence of this pagan worldview is still detectable in the work of modern folk healers in France and Scandinavia. He also shows how the condemnation of unorthodox methods of healing has not vanished from the contemporary world: the medieval legislation against healing by wizards and bonesetters is echoed in modern health codes that challenge the authority of naturopaths and faith healers.
